CASE STUDY 01 / LOGISTICS & DISTRIBUTION

From paper trip sheets to a live fleet dashboard

Power Apps • Power Automate • SharePoint

Drivers filled paper trip sheets; the office re-keyed them; finance reconciled a week later. We replaced the whole loop with a mobile Power App drivers use on the road, plus a live dashboard finance can trust.

4 hrs	Trip-sheet approval turnaround (was 5 days)
1 hr	Weekly reconciliation time (was 12 hrs)
100%	Trip records captured, none lost

“The dashboard is the first thing we open every morning. We stopped arguing about numbers.”

Operations Manager, logistics client | Stack: Mobile-first, offline capture, live dashboard
