CASE STUDY 07 / CONSTRUCTION & PROJECTS

RFIs and submittals tracked on site, not in a truck

Web Apps • Power Automate • Power BI

A 6-site contractor was losing RFIs and submittals in inboxes and WhatsApp groups. A construction-specific web app, mobile-first, with status, due dates and a manager dashboard brought every site back into one view.

100%	RFIs logged, none lost
2 days	Average submittal turnaround (was 9 days)
6 sites	On one dashboard, live

“Project managers stopped chasing WhatsApp. They opened the dashboard.”

Project Director, contracting client | Stack: RFI workflow, submittal log, site dashboard
